BECOME A MEMBER

Our mission is to inspire, educate, and build community support to make breastfeeding the norm for infant feeding in Nevada.

The Southern Nevada Breastfeeding Coalition welcomes the Breastfeeding Community to join us on the third Wednesday of each month from 12pm- 1pm to discuss and plan upcoming events, educational opportunities, and to share ideas and resources.

Breastfeeding is an unequalled way of providing ideal food for the healthy growth and development of infants; it is also an integral part of the reproductive process with important implications for the health of mothers. Review of evidence has shown that, on a population basis, exclusive breastfeeding for 6 months is the optimal way of feeding infants. Thereafter infants should receive complementary foods with continued breastfeeding up to 2 years of age or beyond. - World Health Organization
